

Did you know your car is poisoning you and your family?

MYAIR

Plasma Car Ionizer

FEATURES

Nanometer Light –Accelerant Air Purification

The Nano TiO₂ light accelerant, decomposes harmful volatile organic compounds inside the car such as formaldehyde, ammonia, benzene, VOCs, etc.

It also deodorizes unpleasant smells of cigarette smoke, alcohol and food, It effectively kills airborne bacteria and viruses, and protects passengers from cross infection.

Plasma Purification

This removes airborne dust and static electricity, purifies polluted substances from car combustion, such as carbon monoxide and nitrogen oxide.

Advance Active Carbon HEPA Filter Technology

Effectively filters and captures airborne particles as small as 0.1 micron.

Ozone Purification

Eradicates various infectious bacteria, decomposes organic gases, and deodorizes unpleasant odors.

UV Germicidal lamp

Eliminates harmful airborne germs and bacteria.

Anion Technology

Produces negative ions and active oxygen, creating a natural forest-like environment. Helps to keep the driver sober and alert, promote metabolism, and adjust nerve function to relieve fatigue, ease stress and anxiety.

SPECIFICATIONS

MYAIR MYA54CA

Product Name	Plasma Car Ionizer
Model Number	MYA54CA
Weight	360 gm
Dimension	173 x 122 x 49 mm
Rated Voltage	DC 12 – 24 V
Power Consumption	5 watts
Battery Capacity	850mA/H
AC Adapter Voltage	220V
Coverage Area	15m ²
