

AIROIN SA9500

BREATHE CLEAN, LIVE GREEN!

COMES WITH POWERFUL 9-STAGE FILTRATION!

This comprehensive process removes every major category of indoor air pollutants and contaminants, ensuring a clean and fresh environment.

Breathe Easy: The AIROIN Benefits

YEAR-ROUND FRESH AIR

Enjoy **fresh air throughout the year and in all weathers**. AIROIN removes microbes that propagate indoors in poorly ventilated places, eliminating fine dust particles and harmful gases, keeping indoor air fresh and healthy.

RESPIRATORY DISEASE PREVENTION

Actively **removes suspended particulates, such as microbes, pets' dander, and pollen**, that are common triggers for respiratory diseases, including flu, asthma, and allergies, safeguarding your family's health.

PET ODOR & DANDER REMOVAL

Specifically targets and removes **fine hair and odor generated from pets** (e.g., cats, dogs & birds) and their excreta to **minimize allergenic effects** while enjoying time with pets indoors.

What We Eliminate

Dust

Harmful Gases

Microbes

Mold

Odor

Pet Dander

Pollen

Technical Specifications

Size (H x W x D)	750 x 430 x 283 mm
Weight	10 kg
Max Power Consumption	15 – 50 W
Coverage Area	100 sqm (1,076.4 sqft)
Filtration Efficiency	99.97% at 0.3 µm
Max Noise Level	50 dBA
Sensors	Human Detector, Airborne Pollutants
Fan Speed	Automatic/Manual, Speeds 1 to 4, Sleep mode, and Turbo mode
Purification Method	All-in-One Combination Filter (Pre-Filter, Nano-silver, Activated Carbon, and HEPA) and UV+TiO2
