

Introduce the Gelair™ Tub

The latest innovation for the simplest way to **improve your indoor environment** and leave your rooms **smelling clean and fresh**.

The Gelair Difference: Why Control Matters

The Problem Solved

All Gelair™ products actively **kill the bacteria, mold, and viruses** that build up in your rooms and air conditioning systems.

- ✗ Get rid of musty smells.
- ✗ Defend against mold growth

The Natural Solution: Tea Tree Oil

The Gelair™ Tub uses a **patented Tea Tree Oil vapor**. Tea Tree Oil is a **100% natural essential oil**, known for centuries to **safely kill bacteria, mold, and viruses**.

Mechanism: Quick release gel-based product delivers the potent vapor continuously.

Why Must Buy Gelair™ Tub

- ✓ Kills bacteria
- ✓ Kills mold
- ✓ Kills viruses
- ✓ Eliminates odors caused by bacteria and mold
- ✓ 100% natural
- ✓ No bacteria resistance issues
- ✓ Simple to install and no maintenance
- ✓ One product, multiple action

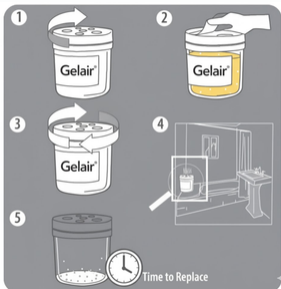

Expanded Coverage & Simple Use

Now for Every Space

While the original Gelair™ blocks were designed for **buildings with large, central air conditioning systems**, the Gelair™ Tub brings this benefit to:

- ✓ Houses with split AC units.
- ✓ Daycare centers.
- ✓ Areas with no air conditioning at all.

Easy 3-Step Setup

The Gelair™ Tub is used exactly like a standard room air freshener.

1. Simply unscrew the lid.
2. Remove the tamper-proof seal.
3. Replace the lid and place the Gelair™ Tub in the area you want to treat.

Duration: Left untouched, it will continue to control your air quality for **up to 3 months**.

Which Size Should I Use?

The Gelair™ Tub comes in 2 convenient sizes to match the space you need to treat.

250ml Tub

For **smaller areas** such as:
Bathrooms, Cars, Closets, and Study Rooms

500ml Tub

For **larger spaces** such as:
Baby Changing area, Bedrooms, and Storage Rooms
