### Core Technology

Molecular binding technology with proprietary surfactant blends

### Mode of Action

Neutralizes odor molecules through chemical binding, not masking

### Performance

Broad spectrum effectiveness, long-lasting residual protection

### Safety Profile

ECOLOGO certified, biodegradable, safe for people and pets

### Target Odors

Hydrogen sulfide, ammonia, mercaptans, organic acids, general malodors

## Primary Applications

Construction

Composting

Wastewater

Municipal

Landfill

Asphalt

Remediation

Petroleum
