

Professional Kitchen Solutions

The Revolutionary Ductless Cook-Top.

Featuring the built-in **SCRUBBOX** air cleaning system. Designed and built specifically for the modern F&B operator.

ADVANCED EXTRACTION

Stainless Steel Precision.

Ventler utilizes heavy-duty **flame-impeding filters** to extract cooking fumes at the source. This is not just a hood; it is a fully integrated filtration engine.

- **Particulates Targeted & Treated**
- **Oil & Grease Targeted & Treated**
- **Foul Odor Targeted & Treated**

INTERNAL ECOSYSTEM

The SCRUBBOX Core

Air is treated through a sophisticated series of filtration systems housed within the unit. The result? Significantly cleaner air released back into your kitchen environment.

"Better Ventilation."

INCREASED KITCHEN COMFORT

"Cleaner Exhaust."

ENVIRONMENTAL COMPLIANCE

NO EXHAUST NEEDED

The perfect solution when constructing a new kitchen exhaust system is not feasible or desirable. Save on massive renovation costs.

FULLY CUSTOMIZABLE

Tailored to your specific menu and workspace. Ventler is designed to grow and move with your F&B business.

EASY MAINTENANCE

Engineered for convenience. Regular servicing is economical and straightforward, ensuring zero downtime for your kitchen.

QUALITY ASSURANCE

A Quality Product by
AOM Singapore.

Ventler is more than just a cook-top; it is a specialized piece of environmental equipment. We help F&B operators overcome structural limitations while maintaining the highest standards of air quality.
